WONDERFUL LEAPING.

The Sandwich Islanders Diving into the Water from a Precipice Ninety Feet High—Expert Women Swimmers.

In the concluding article of the sketches published in the *Nineteenth Century* under the title of "Round the world in the Sunbeam," occurs the following vivid account of wonderful swimming, diving and leaping in the Sandwich Islands:

We returned to the Sunbeam on Christmas day, and on the following day we witnessed some extraordinary feats of swimming performed by the natives of the Island. A copious stream enters the sea about a quarter of a mile west of the little town of Hilo. At a short distance from its mouth it forces its way through a chasm in the volcanic rocks, and then winds round a precipitous crag of lava, at the foot of which it forms a still pool, six fathoms in depth. We had been invited to witness two noted swimmers leap from the summit of the crag into the pool below. The whole population turned out on the occasion and seated themselves on the grassy slopes above the river awaiting the arrival of the two athletes. Meanwhile a number of the more youthful inhabitants of Hilo, of both sexes, entertained us with a display of the art of swimming and diving. One active girl leaped repeatedly from a height of twenty feet into the river. In the intervals between their performances these amphibious people climbed up the rocks that over-hung the river, where they gathered themselves into the most picturesque groups of bronze-colored yet shapely humanity. There were few garments to mar the symmetry of their forms, but there was not the slightest taint of immodesty in the scene. A sculptor, looking on with the cultivated eye of a trained artist, would have revelled in the graceful movements of the forms displayed before him; while a painter would have appreciated not less the harmonious colors of the picture, in which the olive flesh-tints formed such an admirable contrast to the dark lava-rocks on which the swimmers reclined. Many a laborious student of the academy has racked his brain in the vain effort to produce a composition on canvas or in marble, with not one-half the beauty or the truth to nature of these fortuitous assemblages of graceful figures.

An hour had passed away not unpleasantly when the heroes of the day arrived. They were to leap into the pool beneath from the summit of a precipice ninety feet in height. Thirty feet below the edge a crag juts out fifteen feet from the face of the rock. It was necessary for the swimmers to clear this projection. We were seated on the ledge of rock near the edge of the water to witness the feat they were about to perform. It was a point of view whence the swimmers were seen with striking effect, as they first appeared on the crag before us, and paused for a moment on its brink before taking their tremendous leap into the gulf beneath.

As we looked up to the summit of the precipice the powerful forms of these olive-colored men—notable specimens of the native races of the Pacific—stood out in magnificent relief against the dark blue sky. Each wore a green wreath fastened on his brow, a trifling touch which enhanced the resemblance to those admirable products of ancient art, the bronze figures of the flying Mercury in the museum at Naples. As the first swimmer gathered himself together for the leap, there was a breathless silence in the crowd, a momentary glance of hesitation in the hero of Hilo, succeeded by that set look which a man wears who is determined to do a chivalrous deed or perish in the attempt. Then came a superb elastic bound, an agile readjustment of the balance, and the athletic figure darted downwards like an arrow through the air, with a tremendous splash, disappeared feet downwards below the glassy surface, and after a prolonged immersion, rose again to the surface scathless, amid the enthusiastic ovations of the crowd.

The great feat was followed by a performance which, in a less ambitious country, would have excited wonder. It was a leap down a waterfall having a fall of fifteen feet. Not only did the two champions take the leap, but even the nymphs of Hilo, in numbers, followed them. After disappearing for a few moments in the seething water at the foot of the cascade, they reappeared laughing and talking, evidently regarding this feat as an ordinary bathing incident.

HOW TO TELL THAT EGGS ARE EGGS.

A good egg will sink in water.

A boiled egg which is done will dry quickly on the shell when taken from the kettle.

The boiled eggs which adhere to the shell are fresh laid.

After an egg has laid a day or more the shell comes off easily when boiled.

A fresh egg has a lime-like surface to its shell.

Stale eggs are glassy and smooth of shell.

Eggs which have been packed in lime look stained and show the action of the lime on the surface.

Eggs packed in bran a long time smell and taste musty.

With the aid of the hands or a piece of paper rolled in funnel shape and held toward the light, the human eye can look

In the egg is clear and golden in appearance when held to the light it is good; if dark or spotted; it is bad.

The badness of an egg can sometimes be told by shaking it near the holder's ear, but the test is a dangerous one.

Thin shells are caused by lack of gravel, etc., among the hens laying the eggs.

Many devices have been tested to keep eggs fresh, but the less time an egg is kept the better for the egg and the one who eats it.

Vienna has two hundred thousand Jews. The leading banks, business houses, newspapers, hotels, and restaurants are controlled by them. The prettiest women in the city are said to be Jewesses.

MISCEGENATION FACTS.

The child of colored parents of different tints, such as quadroon and mulatto, or mulatto and black, will be nearer the tint of the darker parent. If both parents are of the same color, the child will be a shade darker, and singularly enough, the second child will be darker than the first, the third darker than the second, and so on to the last. In other words, a colored community, left to itself, is fatally destined to return to the original African black after a limited number of generations. Thus, while each alliance with an individual of pure Caucasian blood brings the negro a step nearer to the white standard, the reverse is the case the moment the Caucasian element is withheld, and the color retrogrades from light to dark.

A curious proof of this is found in observations made during some time in one of the islands. A mulatto woman had a female child by a white man; this young girl gave birth to a quadroon by a white father, and this recrossing with the white race was kept up for six generations. An identical process of recrossing had been simultaneously noticed in another plantation. The children resulting from the seventh crossing in both of these families were of remarkable physical beauty; they had blonde hair, their complexion was of such transparent fairness that they might have been taken for Albinos, but for the vigor and gracefulness of their limbs and their brilliant intellect. The most experienced eye could not have detected in them the slightest indication of their African origin. They intermarried. Their children were dark complexioned, and the children of their children are very dark mulattoes.

This inexorable law of nature is given as one of the principal reasons why the Creoles refuse to intermarry with families who have the faintest tint of negro blood in their veins, though their skin may be as fair as that of Europeans. The Creoles wish their posterity to remain what they themselves are—whites.

WHY IT PAYS TO READ.

One's physical frame—his body, his muscles, his feet, his hands—is only living machinery. It is the mind controlling and directing that machine, that gives it power and efficacy. The successful use of the body depends wholly upon the mind—upon its ability to direct the will. If one ties his arm in a sling it becomes weak and finally powerless. Keep it in active exercise, and it acquires vigor and strength, and is disciplined to use this strength as desired, just as one's mind, by active exercise in thinking, reasoning, planning, studying, observing, acquires vigor, strength, power of concentration, and direction.

Plainly, then, the man who exercises his mind in reading and thinking, gives it increased power and efficiency, and greater ability to direct the efforts of his physical frame—his work—to better results than he can who merely or mainly uses his muscles. If a man reads a book or paper, even one he knows to be erroneous, it helps him by the effort to combat the errors.

Of all men, the farmer, the cultivator, needs to read more, to strengthen his reasoning powers, so that they may help out and make more effective, more profitable, his hard toil. There can be no doubt that the farmer who supplies himself with the most reading—the most of other men's thoughts and experiences—will in the end, if not at once, be the most successful.

A copy of the great Mentz Bible, printed by Gutenburg in 1455, being the first book ever printed, has been sold by auction at Paris for the sum of two thousand pounds. It was printed on vellum, but is not quite perfect, having one leaf and several portions restored in fac simile by M. Pilinski. At the celebrated Perkins sale in 1873, a copy of the same work realized the enormous sum of thirty-four hundred pounds.

AN AWFUL STORY.

There was once an awful little girl who had an awful way of saying "awful" to everything. She lived in an awful house, in an awful street, in an awful village, which was an awful distance from every other awful place. She went to an awful school where she had an awful teacher, who gave her awful lessons out of awful books. Every day she was so awful hungry that she ate an awful amount of food, so that she looked awful healthy. Her hat was awful small, and her feet were awful large. She went to an awful church, and her minister was an awful preacher. When she took an awful walk she climbed awful hills, and when she got awful tired she sat down under an awful tree to rest. In summer she found it awful hot, and in winter awful cold. When it didn't rain there was an awful drought, and when the awful drought was over there was an awful rain. So that this awful girl was all the time in an awful state, and if she don't get over saying "awful" about everything, I am afraid she will, by-and-by, become an awful bore.—*Child's Own Magazine.*

THE ROADS OF IRELAND.

The public roads of Ireland are absolutely perfect. Go where you will through the rural districts, and the roads are thoroughly turnpiked, thoroughly drained and as level as a board. The bridges over the creeks and rivers are all of stone. Every road has a sidewalk for foot-passengers elevated about six inches above the main road, and from four to six feet wide. The fences on either side are of solid stone masonry, to the height of from four to six feet, upon the top of which are growing hedges of hawthorn or furze, or grass and wall flowers. The walls inclosing the roads are festooned with ivy and wild flowers, producing a charming effect. Every country-seat is thus "hedged in" from the outside world. There is no getting over the barrier, and access can only be had through the lodge gates, which are in charge of the lodge-keeper, generally a woman, who admits only a favored few. The constabulary are always on hand to arrest trespassers. "Tramps" have a poor show in Ireland. They must keep to the roads, or go to jail.—*Cor. Reading Times.*

A correspondent of the London *Times* writes:—"There is a simple method—apparently sufficiently well known—of discriminating between real and spurious diamonds. If the specimen is immersed in water, should it be a diamond, it will sparkle with almost undiminished light and brilliancy of color; but if it be spurious, whether paste or rock crystal, the 'fire' of the jewel will be completely quenched."

J. BAGNALL, Pianoforte and Organ tuner and repairer, Government street, Victoria, 27 years' experience. *

TUESDAY MORNING, OCT. 7TH, 1879.

L. P. FISHER, 20 and 21 New Merchants Exchange, is our authorised Agent in San Francisco.

THE WRECKING CONTROVERSY.

The recent refusal of our Collector of Customs to allow an American schooner to wreck the American bark Gem of the Ocean, ashore on the Vancouver shore of the Straits of Fuca, has created attention at the east, where a refusal on the part of Canadian customs officials to permit an American vessel to wreck an American vessel that had gone ashore on the Canadian coast had already caused much interest in official circles in Washington. According to the correspondent of the Buffalo *Courier* at the capital, the Treasury Department of the United States has formally protested against the orders under which our custom house officials are now acting. In a communication addressed to the Secretary of State Secretary SHERMAN charges the Dominion Government with a violation of treaty obligations in this matter. This charge is based on the terms of the treaties of 1794 and 1842, it being claimed that the latter provides that certain waters and channels, embracing the waters over which the Canadian regulations have been established, "shall be equally free and open to ships, vessels and boats of both parties." It is, moreover, urged by Secretary SHERMAN that as the Supreme Court of the United States has decided that a vessel of a foreign nation which is at peace with the Republic is not subject to seizure or civil process, any infringement of this decision is a violation of international obligation and courtsey. This proposition is somewhat startling, for it seeks to compel Canadians to accept decisions given in foreign courts by foreign judges. The last contention put forward by the Secretary is that our regulations are opposed to the interests of humanity. The American case does not present any formidable features and doubtless will be effectually disposed of by our Government. The Toronto *Mail* says that the declaration made by the *Courier* that American cutters are authorized to render assistance in Canadian waters, and if interfered with in performing this duty, they are prepared to meet such interference with force, is a harmless piece of bunkum. No doubt every effort will be made by the Dominion Government to arrive at a satisfactory settlement of this difficulty, while at the same time guarding the interests of our people.

ADULTERATION IN ENGLAND.

The series of reports published in the *Lancet* during the years 1851-4, both inclusive, show that the percentage of adulteration in articles of consumption amounted to no less than 61-59. Recent official returns estimate the present percentage of adulteration at 17-2. Dr. Hassall, who prepared the *Lancet*, reports, at the instance of Mr. Wakley, believes the proportion still amounts to 25 per cent., and he accounts for the difference between his own estimate and that of the official returns by pointing out that in many cases where purchases are made by police officers the genuine article is supplied; that many adulterations, especially of malt beverages, are difficult to detect, and that some admixtures have been legalized, though, strictly speaking, they are adulterations. On the whole, however, Dr. Hassall thinks the public may be congratulated that "they can now procure bread without alum; coffee without roasted wheat, beans, or even chicory; cocoa without fecula; bottled fruits, vegetables and pickles without copper; potted meats without bole Armenian; mustard without wheat-flour and turmeric; cayenne without red lead; vinegar without sulphuric acid; but milk still, unfortunately, often not without water." This improvement he attributes partly to the deterrent effects of the *Lancet* reports, the names and addresses of those of whom the articles analyzed were purchased being published, and partly to the Sale of Food and Drugs Act. There can be no doubt as to the deterrent effect of the *Lancet* reports, and it would be difficult to over-estimate the obligations of the community of Mr. Wakley, who risked the penalty of libel that he might render a great public service. Moreover, the exposure led to the Sale of Food and Drugs Act.

CORRUPT PRACTICES.

The Philadelphia correspondent of the London *Times*, himself an American, has roused considerable indignation among his countrymen by a recent letter in which he lays bare the corruptions of the railroad system and the subserviency of cabinets, congresses, legislatures, governors and judges to railway kings. The latter, he says, rule the whole United States "in all essential things;" judges are expected to and generally do "obey the great railroad corporations, and in the State Legislatures "every man has his price." The *Times* editorially says that his judgment "is harsh to a degree only permissible to natives in judging their countrymen." Of course the United States press attack the writer for his want of "patriotism," vnd deny the correctness of his assertions. They may be somewhat too sweeping, but they probably contain a great deal of wholesome truth. If the correspondent desires to substantiate his position he can very easily accumulate copious corroborations of his statements from the American press themselves and the speeches of many leading men. The London correspondent of the New York *Tribune* (Jay Gould's organ) deplores the damage done to American credit abroad by such statements, as it is quite natural from its standpoint. The European investors, however, who have been plundered by stock-gambling railroad managers and repudiating States and cities, will regard the matter in a different light. The *Times* correspondent deserves credit for his exceptional candour and courage. "It's a dirty bird that fouls its own nest," of course. But isn't it a dirtier bird that lets the nest remain foul and resents an attempt to cleanse it?

THE BRITISH ATTACKED AT SHUTARGARDIN.

REPULSE OF THE ENEMY.

Renewal of the Quebec Labor Troubles.

FATAL BALLOON ACCIDENT AT SAN FRANCISCO.

INDIA.

SIMLA, Oct. 5.—The British camp at Shutargardin was unsuccessfully attacked yesterday by some independent hostile tribes of that desert. The enemy was repulsed with a loss of 200 killed. The British loss was six wounded. The third regiment of Sikhs and 21st Punjaub native infantry hold a strongly entrenched position in Shutagardin Bass. The Ameer strongly urges Gen. Roberts to delay his advance on Cabul as he fears that the Afghan troops will sack Bala Hesar on the approach of the British, especially as he believes that only one of his regiments is trustworthy. Gen. Roberts will not act upon the Ameer's representation. Gen. Gough, with a detachment of guides of the 9th regiment and four mountain guns, has arrived at Basaal. He is promised every assistance from the Governor of Jellalabad.

BOMBAY, Oct. 5.—A telegram from Peshawar states that Gen. Gordon, who is holding Piwar Khetal, is surrounded by hill tribes and that his position is critical and that the 85th and 90th Lancers and part of the 81st regiments have been sent to reinforce him. This is probably an exaggerated version of a report from Simla that communication with the British troops had been cut off that day by tribes on both sides of the Shutagardin Pass.

SIMLA, Oct. 5.—An expedition under command of Gen. Sittar consisting of several regiments is about to be sent to avenge the murder of Lieut. Kinloch by marauding tribes.

CANADA.

QUEBEC, Oct. 5.—A renewal of the trouble among ship laborers at New Liverpool is apprehended. While a party of French Canadians were sitting in front of their boarding house they were assailed by a volley of stones quickly followed by a number of pistol shots. The Frenchmen took to the hills and escaped.

PACIFIC COAST.

SAN FRANCISCO, Oct. 5.—About half-past three this afternoon Prof. Colgrove, æronaut, and C. H. Williams, manager of Woodward's Gardens, attempted to make a balloon ascension from the Gardens, the wind blowing almost a gale. The balloon seemed to be insufficiently inflated with gas and rose heavily above the buildings of the Garden. It soon after dropped and scudded along at a low elevation, tearing away telegraph wires in its flight. In a moment the bag ripped and the gas escaped with a roar heard for blocks. Both occupants of the basket were thrown out falling on Folsom street between Fourteenth and Fifteenth, while the balloon came down a few rods beyond. A great crowd from the Gardens and vicinity instantly collected and medical assistance was summoned. Williams was fearfully crushed about the face and head and died in a few moments. Colgrove's face was somewhat bruised, but his injuries seemed mostly internal and although alive at last accounts he was insensible and not likely to survive. The disaster has created a considerable sensation and many who frequent the Gardens assert that the balloon was badly patched and unsafe at best and express surprise at Williams risking the excursion, especially in such boisterous weather.

SAN FRANCISCO, Oct. 5.—Prof. Colgrove has since died from his injuries. Prof. Martin, æronaut, and others who were present at the ascension, begged Mr. Williams not to go up, saying that in half the gale that was blowing he was literally taking his life in his own hands. The men fell about 200 feet, the balloon rebounding after striking the telegraph wires, then striking a chimney and again rebounding, at which moment the æronauts were thrown out.

DELAYED DISPATCHES.

CALIFORNIA.

SAN FRANCISCO, Oct. 3.—Argument on the demurrer in the suit of John H. Burke against J. C Flood of the Nevada Bank and the estate of Wm. S. O'Brien, deceased, to recover $1,500,000, was concluded to day, but no decision rendered. Counsel for defendants asked for an order staying further examination of Mr. Flood as a witness in the case till the demurrer is decided but it was denied by the court. The case is hotly contested, Burke seeking to prevent a distribution of O'Brien's estate till the case is ended, and the defendants trying to go on and distribute. Hon. Nathaniel Bennett, formerly chief justice of the Supreme Court of California and candidate of the new constitution party for that position at the late election, has been retained by Burke, appearing in the case to-day for the first time.

SAN FRANCISCO, Oct. 3.—Detective Dan. C. Gay, who has been working up the Wheatland mystery, suicided last night by taking morphine. He left a letter to his wife saying that he had broken his promise not to drink, and atoned for it with his life. His return to drink is attributed to anger at a charge of attempting to blackmail Roddens, preferred by the attorney for the defence while Gay was on the stand.

Henry Smith, the colored ex-watchman at the mint, who pleaded guilty in the U. S. district court to a charge of stealing bullion to the value of $15,000, has been sentenced by Judge Hoffman to four years in the state prison.

EASTERN STATES.

NEWARK, N. J., Oct. 2.—Thos. O. Woodruff of West Orange, was shot, probably fatally, to-night, by his son-in-law, Andrew Krunch, who then killed himself. Woodruff had refused to give Krunch $50.

CHILE.

PANAMA, Oct. 3.—A dispatch dated Valparaiso, Sept. 8th, says that it is reported that the Chilians, before evacuating Calama, sacked and burned the place. The Chilians have made raids into Bolivia beyond Conchas Blancas, destroying the commissary and ordnance supplies and seizing horses and carts. It is reported that Peru has suspended payments from the treasury and prohibited the exportation of silver.

WASHINGTON TERRITORY.

SEATTLE, Oct. 2.—A letter received here last evening from Skagit mines, from Wm. Boren and son, states that they are taking out an ounce of gold to the man per day.

Tenders for Work in British Columbia

SEALED TENDERS addressed to the undersigned and endorsed "Tender Pacific Railway," will be received at this office up to noon on

MONDAY THE SEVENTEENTH DAY OF NOVEMBER NEXT,

For certain works of construction required to be executed on the line from near Yale to Lake Kamloops in the following sections, viz:—

Emery's Bar to Boston Bar, twenty-nine (29) miles; Boston Bar to Lytton, twenty-nine (29) miles; Lytton to Junction Flat, twenty-eight and a-half (28½) miles; Junction Flat to Savona Ferry, forty and a-half (40½) miles.

Specifications, bills of quantities, conditions of contract, forms of tender and all printed information may be obtained on application at the Pacific Railway office in New Westminster, British Columbia, and at the office of the Engineer-in-Chief at Ottawa.

Plans and profiles will be open for inspection at the latter office. No tender will be entertained unless on one of the printed forms and all the conditions are complied with.

By order.

F. BRAUN, Secretary,
Department Railways and Canals.

OTTAWA, October 3rd, 1879.

Just as Was Suspected.

None of the City members were consulted respecting the recent important change at the Treasury. The matter was arranged by Messrs. Walkem and Beaven. Are we back in the political dark ages of the Province, when Crown influence was supreme; or are we supposed to live under a Government responsible to the people? Really, the high-handed proceedings of the triumverate respecting appointments and dismissals takes one's breath away. Let no one make a mistake: the People's representatives will certainly redress the wrongs of every man whose rights have recently been invaded.

Oregon.

PORTLAND, Oct. 4.—King, on trial during the week at Oregon City for the murder of Mrs. Hagar, has been found guilty of murder in the second degree. The chief testimony against him was based on his own confessions, made to different persons, though these were supported by a great variety of circumstances.

HARVEST HOME AT CHRIST CHURCH CATHEDRAL.—The decorations at this sacred edifice on Sunday were charming and appropriate to the occasion. The pulpit, lectern, prayer-desk, chancel and font bore evidence of a bountiful yield of Nature's gifts. The attendance was large. Those ladies of the congregation who so kindly decorated must have felt well pleased at the effective results of their labors. Appropriate sermons on the subject of the day were preached in the morning by the Rev. Mogg and in the evening by the very rev. the Dean to large and attentive congregations. The services were full choral, Redhead's arrangement as usual being used, and they were well rendered by both the morning and evening choirs. The offertories devoted to church expenses were as follows: Early communion, $49; matins, $27.30 and evensong, $17.45.

MUSICAL AND LITERARY ENTERTAINMENT.—The seventh of the series of entertainments at St. John's Church Schoolhouse, Herald street, will be held on Wednesday evening next, commencing at 8 o'clock. An excellent programme has been provided for the occasion. Admission 25 cents. *

FORTUNATE SPECULATORS.—The entire townsite of Emery's Bar, the temporary terminus of the Canada Pacific Railway and the future head of steamboat navigation on Fraser River, is owned by Oppenheimer Bros., who bought it last spring for a more song.

Municipal Police Court.

[Before Hon. A. F. Pemberton.]

MONDAY, Oct. 6th.

Ah Chee, a Chinaman, convicted of supplying intoxicating liquor, was fined $50; in default of payment three months' imprisonment.

Chang New, charged with assaulting another Chinaman, named Choo Hook, and with stealing from him a gold pen valued at $20 and upwards, was discharged. The defendant was also charged with assaulting Lee Fook, by scratching him and drawing blood from his forehead and neck.

Lee Fook, charged by Ching Lay with assault, was also convicted and remanded until Wednesday for sentence.

J. P. Hughes was charged by E. L. Geodeau, an elderly Frenchman, with assaulting him by striking him with a piece of planking.

The defendant admitted having struck the plaintiff with a small piece of board, but denied having assaulted him with the plank produced in Court.

The Court imposed a fine of $20; in default of payment a month's imprisonment.

Miss Henriotta Monroe.

To remind the community of the great intellectual treat which is in store for Thursday evening next at Theatre Royal we reproduce the following criticism on Miss Monroe from the Toronto *Globe:* "Without the aid of orchestra or stage accessories Miss Monroe not only entertained but deeply interested a critical audience for two hours, at one moment convulsing her hearers with laughter, at another in simple pathos or genuine tragedy, bringing to the eye that silent and sincere tribute that speaks a higher than can the most deafening thunders of applause. The acting though intense and realistic, was full of native grace, which even the perfection of art cannot give." Reserved seats for the entertainment on Thursday evening may be secured at Redfern's jewelry store without extra charge." Captain Morse of the steamship Dakota will appear in one of the acts.

The $4,500 Appropriation.

The City members met at the Treasury yesterday. A short but sharp discussion took place respecting the appropriation of $4,500 for City purposes, and three of the four members decided to await the return of Mr. Walkem from Cariboo before finally disposing of the matter. The Finance Minister was anxious to dispose of the matter immediately, but his colleagues' decision was inexorable. It would afford no one surprise to hear that he of the Finance Department had paid the money over to the city. Eight hundred dollars of the appropriation was expended by him without consulting anyone but Mr. Walkem; and why should he be controlled in the expenditure of the balance?

COWICHAN HARVEST THANKSGIVING.—On Wednesday last the Church people of the Cowichan district met in their beautiful church to return thanks for an abundant harvest. The crops there are large and in excellent condition and housed in perfect order. The sermon was preached by the Venerable Archdeacon Wright who took for his text "Consider the lilies of the fields how they grow," and most attentive were his hearers, some 60 in number. The offering, considering the times, was good, $21. About 2 p.m. all sat down to an excellent dinner and cheerfulness was the order of the afternoon. In the evening dancing with music gave the barn quite a pleasing air and a very happy day closed with three cheers for Mr. and Mrs. Holmes and the same for the Archdeacon.

MARINE.—The bark James Chestin, in tow of the American steamtug Goliah, arrived at Departure Bay on Saturday night for a cargo of Wellington coal for San Francisco....The ship Storm King, laden with 1877 tons of South Wellington coal for San Francisco, has been towed to sea by the steamer Alexander....The barks Brazos and Eva Fisk are loading at the same mine and the Marmion and Montana are on the way from San Francisco....The bark Don Nicolas arrived in Royal Roads on Sunday last and has gone to Departure Day for coal.

ANNUAL FAIR.—A proposition is about to be made by a company of local capitalists and others interested in the prosperity of this city to arrange for the holding of an annual fair for the exhibition of agricultural and other products, the fair to last five days and to be conducted on a plan similar to that at Salem, Oregon. Beacon Hill is suggested as a proper place for holding the fair, and a proposition with that object in view will be laid before the City Council.

FROM PUGET SOUND.—The steamer Isabel arrived here at 2:30 p.m. yesterday from Port Townsend with the overland mails and express, a small quantity of freight and the following passengers: Mr. and Mrs. Dingwall, Mr. and Mrs. Boyd, Miss Delgardno, Messrs. Myers and McKee. The Isabel experienced very rough weather whilst making the passage to Port Townsend yesterday morning.

ADVERTISING CARD.—In answer to numerous inquiries in this City and New Westminster we would state that an advertising card is not in process of preparation at this office, and that no person is authorized to collect money for such an enterprise on our account.

BROUGHTON STREET HALL ENTERTAINMENTS.—An excellent programme has been prepared for this evening, embracing, humorous readings, recitations, some new music and concluding with a charade, in which will appear a number of fresh amateurs, whose aspirations fall nothing short of Shakespeare.

FOR THE WINTER.—S. Reid & Co. have received by the Alaska a splendid stock of Men's and Boys' Ulsters, Overcoats, Suits, &c., of the latest styles both in cut and material, which they have marked at exceedingly low figures. *

INDIAN WAR.—Uncle Sam has got another Indian war on his hands. Payne's command of soldiers was attacked at Milk River, Colorado, and Major Thornburgh and ten soldiers killed. The command at latest accounts was entrenched and awaiting reinforcements.

POSTPONED.—The musical and literary entertainment announced to take place at St. John's Church school-house, Herald street, to-morrow evening, has been postponed until the evening of Wednesday, the 15th inst.

HARBOR IMPROVEMENTS.—The repairs on the dredger have been completed and to-day dredging on the spit at the mouth of the harbor will be resumed.

A COURT OF ASSIZE will be held at New Westminster on the 25th inst.

The Fire Department Election.

The election of Chief and Assistant Engineers of the Fire Department for the ensuing term took place yesterday, the poll opening at the Union Hook & Ladder House at noon and closing at 4 p. m. Notwithstanding the unusual amount of interest evinced in the election, the proceedings passed off harmoniously, thorough good feeling being displayed amongst the members of the several companies. During the afternoon vehicles of every description were kept busily employed conveying voters to and from the voting place, which was crowded with members of the Department just before the close of the poll. A few minutes before 4 o'clock the members of the Board of Delegates were in attendance and President Lohse having called the meeting to order arrangements were matured to proceed with the count.

Previous to the ballot-box being opened, Delegate Griffiths stated that four contested votes had been cast and suggested that the Board take action with reference to them before proceedings were commenced.

Mr. Lewis Lewis remarked that it was hard that any member in good standing should be deprived of his vote through any informality or neglect of the Secretary of a company.

Delegate Vaughan submitted that it was time a line should be drawn somewhere, and he thought the line should be the 10-day voting list. If the name of a member of the Department was not on that list, no matter from what cause, then he was not entitled to vote.

On motion it was unanimously resolved that the contested votes should not be counted.

The ballot-box was then opened and the count proceeded with, President Lohse taking the ballots from the box and handing them to Treasurer Geiger, who called out the votes, which were recorded by Secretary McQuade in the presence of the candidates. The election resulted as follows:

FOR CHIEF ENGINEER.

Chas. J. Phillips (Deluge Co.)	72
Simeon Duck (Tiger Co.)	37
F. G. Richards (U. H. & L. Co.)	34

FOR ASSISTANT ENGINEER.

August Borde (Tiger Co.)	62
J. R. McKenzie (U. H. & L. Co.)	45
Jos. Sears (Deluge Co.)	35

The President of the Board having announced the result declared Mr. Chas. J. Phillips and Mr. Aug. Borde elected Chief and Assistant Engineer, respectively, for the ensuing term of office. The announcement was received with loud applause from those present.

Mr. F. G. Richards then rose to offer a few remarks. Whilst not begrudging Messrs Phillips and Borde the victory they had won, he wished to state that the election reminded him of the time when Mr. Harris ran for the Legislature. He (Mr. Harris) then had, according to his own statement, about 1000 pledges; but after the election he found that amongst those who had promised to vote for him there were 800 liars. He (Mr. Richards) had passed through a similar experience and now knew that there were a good many liars in the Fire Department. He would keep his eye on them in future.

The members present then tendered their congratulations to the successful candidates and the meeting dissolved amid cheering and the ringing of the bells of the several engine-houses.

WEST SAANICH ROAD.—Will the Government listen to a "word of wisdom" from a sincere friend and well-wisher? There is a fearful hole in the West Saanich road near the Indian village. It has been there some years' enlarging as the seasons roll round. Complaint has been made frequently at the Lands and Works without relief being had and the road at that point is now impassable. A former supporter of the Local Government begs us to direct the attention of the "powers that be" to the fact. We do so now, in the full hope and confidence that the road will be repaired immediately. Should the Government question the existence of the hole, we have made arrangements to have it carted to town and dumped at the door of the Lands and Works office.

CLINTON ASSIZES.—The only case for trial at these assizes will be that of the two men, Halliday and Carey, committed for the murder of the Poole family. The Chief Justice will preside and the prosecution will be conducted by Mr. A. R. Robertson, Q.C. Where is the Attorney General? It was understood that he left here on Friday last ostensibly to conduct the business for the Crown, for which he is paid by the people, but rumor now says that he is on his way to Cariboo to electioneer for a seat in the Ottawa house in anticipation of a vacancy occurring in that district by the promotion of the present member to the Senate. Whilst the Attorney General jaunts his electioneering car the expenses of a professional gentleman engaged to perform his duties have to be defrayed by a long-suffering community.

THE steamer Wilson G. Hunt arrived here at half-past 9 o'clock yesterday morning from Nanaimo *via* New Westminster, having taken from the former to the latter place 80 tons of Wellington coal. She brought down half a dozen passengers, amongst whom were Messrs. Chandler, Moore, Kyle and P. Briggs.

CLINTON ASSIZES. — Mr. Robertson, Q.C., has been retained to act as Crown Prosecutor at Clinton. Is not this a shameful waste of public money when we remember that the Attorney General will be at or near Clinton on the day set for the trials?

FOR BURRARD INLET.—The steamer Etta White left here at 10 o'clock yesterday morning for Burrard Inlet, taking up as passengers: Messrs. H. Nelson, Welch, Dr. Walkem, Mrs. Walkem and several others.

SUPERINTENDENT.—Mr. A. J. McLellan, late of this city, is superintending an important work for the O. S. N. Co. on Snake River, W.T., and has 60 men under him.

THE ARBITRATION.—The arbitration of Mr. F. J. Barnard's claim against the Dominion Government has been further postponed until the return of Mr. Walkem from Cariboo!!

ACTING PREMIER.—Mr. Beaven will act as Premier during Mr. Walkem's absence at Cariboo.

Supreme Court.

[Before Mr. Justice Gray.]

MONDAY, Oct. 6.

Re the writs of *habeas corpus* to discharge the sailors of the bark Pride of England. Mr. Justice Gray delivered judgment to-day. His Honor said that the objection to the information could not be sustained because the conviction and commitment, if good, were sufficient. In his opinion neither the conviction nor the warrant of commitment was valid. The latter was not in terms for an offence known to the law and varied materially from the conviction, in that it omitted any mention of the pecuniary penalty adjudged by the conviction. The conviction was also bad, for amongst other reasons it adjudged an uncertain money penalty—the expenses of the hiring of a substitute. Who was to determine these expenses? Certainly not the men, nor the captain. The amount and the mode of ascertainment were left unprovided for by the conviction. A further cardinal defect was that the statute authorized the infliction of the payment of the expenses of hiring a substitute which *had* been incurred, whereas the conviction was for expenses which *might* be incurred. The learned judge deprecated the practice of Justices of the Peace exercising arbitrary discretion. They were bound by legislative enactments and should learn that they could not (simply because they had judicial authority) contemn the bounds of their jurisdiction and regard the substantial provisions of a statute as merely red tape. The liberty of the subject was not to be controlled by caprice, but only under positive authority.

Order absolute for the discharge of the prisoners.

THE PERCHERON HORSES.—These splendid animals were conveyed to Port Townsend on board the steamer Isabel yesterday morning.

THE steamship California, bound for Fort Wrangel and Sitka, reached Nanaimo at 2.30 p. m. on Sunday last.

SOUTH WELLINGTON.—The South Wellington coal mine shipped 5300 tons last month and will ship 6000 in October.

COUNTY COURT.—A number of cases are set down for hearing at this Court to-day.

Canadian Mail.

[Per Steamer Isabel.]

QUEBEC, Sept. 23.—It is generally credited that Mr. Joly will ask for a dissolution on the 30th of this month after the meeting of the Legislative Council.

The members of the Quebec Government will hold meetings in every Legislative Division in the Province whose members have voted against the supplies; this is in order to ascertain the public opinion of the divisions.

MONTREAL, Sept. 23.—This afternoon Mr. C. F. Smithers, joint Manager of the New York agency, was appointed General Manager of the Bank of Montreal. Mr. Smithers began his banking career in the Bank of British North America, entering the service of that institution about the year 1845.

QUEBEC, Sept. 22.—Hon. Mr. Joly will accompany Sir John Macdonald and Lieutenant-Governor Robitaille to Ottawa to-morrow morning. The special train with the distinguished party on board will leave the Palais Station of the Quebec, Montreal, Ottawa and Occidental Railway at 8 a.m.

To-day Sir John drove around and inspected the principal public buildings and the new city gates, &c. In the afternoon he had a long consultation with a number of his political friends at the residence of Mr. A. P. Caron, M.P.

Lieut.-Governor Haviland, of Prince Edward Island, has received from the Governor-General an artistically executed colored photograph of himself and the Princess, accompanied by a letter from his Excellency, in which he conveys his grateful thanks for the kindness and hospitality shown to the vice-regal party during the visit at Charlottetown by the Lieut.-Governor. His Excellency also expresses his gratification at the circumstance that his first visit to Prince Edward Island was made whilst Mr. Haviland occupied the gubernatorial chair.

OTTAWA, Sept. 23.—Sir John Macdonald, Lieut. Governor Robitaille and Mr. Joly have arrived.

McKellar Bros., explorers, have found gold a hundred miles east of Prince Arthur's Landing. A rush in that direction is not improbable.

MONTREAL, Sept. 23.—At the meeting of the Consolidated Bank Board to-day Sir Francis Hincks and Mr. Saunders resigned their positions on the Board, whereupon Messrs. Henry Lyman and James Croil were elected in their place. The Hon. D. A. Macdonald, Lieut. Governor of Ontario, was elected to the directorate in the place of Mr. Andrew Robertson, who resigned some time ago, and Mr. John Rankin was elected President instead of Sir Francis Hincks.

It is reported here that Mr. Renny, the late General Manager of the Consolidated Bank, has taken up his residence in St. Paul, Minn.

English Mail.

[Per Steamer Isabel.]

A young lady was recently buried at Brighton, England, under romantic circumstances. The day of her interment was the day originally fixed for her marriage, and her friends complied with her dying wish that she should be drawn to the grave by the horses which had been engaged to convey her to church. To the catafalque there were attached four grays whose heads were decked with floral rosettes of white and red geraniums, and the coffin was covered with a white and amber silk pall. The carriages which followed were also drawn by horses caparisoned similiarly to those which drew the hearse.

The friends of Mr. Carlyle will be glad to learn that he was able to attend the marriage of his niece and amenunsis, Miss Mary Carlyle Aitken, which took place on Thursday, at the house of her parents, in Dumfries.

The bridegroom was one of her Canadian cousins, Mr. Alexander Carlyle, B. A., of the Bield, Brentfield, Ontario. The marriage was solemnized by the Rev. James A. Cambell, parish minister of Troqueer; and after the ceremony Mr. Carlyle entered into lively conversation with Mr. Cambell, expressing gratitude to Almighty God for having spared him so many years, and speaking much about the work of John Knox. It is understood that the newly married pair are to reside at Chelsea, under the same roof with their venerable relation, to whom Miss Aitken has acted as house-keeper since shortly after the death of Mrs. Carlyle, in 1866.

A queer story comes from St. Petersburg of an elderly gentleman who gave a ghastly entertainment at a well-known restaurant in the Hotel Demuth. He ordered a dinner for six, at which all the luxuries of the season, including the most costly wines, were to be served. He even gave minute directions as to the temperature at which he wished the respective wines to be kept. Punctually to the time appointed, 7 o'clock, he arrived and ordered the dinner to be served. When the head waiter timidly suggested that the five expected guests had not yet made their appearance, he answered: "They are here! Let the soup be served." The dinner went thus through all the various courses. Every course of which the host partook, and he dined sumptuously, was distributed to the invisible guests. The mysterious host royally entertained his phantom guests, drank to their health and made more than one speech, which was received in silence. When he paid his bill and took his leave he observed, "To-day I celebrate my joyful meeting with my dead wife, daughter and three sons, two of whom fell in the last campaign. Do not be afraid, I am not mad. It has done me a power of good to spend this hour with my family. You may look for me again this day twelvemonth." The terrified waiters hope he may join his family before the day comes round.

Various Causes--

Advancing years, care, sickness, disappointment and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed prematurely. AYER'S HAIR VIGOR will restore faded or gray, light and red hair to a rich brown or deep black as may be desired. It softens and cleanses the scalp, giving it a healthy action and removes and cures dandruff and humors. By its use falling hair is checked and a new growth will be produced in all cases where the follicles are not destroyed or glands decayed. Its effects are beautifully shown on brashy, weak or sickly hair, to which a few applications will produce the gloss and freshness of youth. Harmless and sure in its operation, it is incomparable as a dressing and is especially valued for the soft lustre and richness of tone it imparts. In contains neither oil nor dye and will not soil or color white cambric, yet it lasts long on the hair and keeps it fresh and vigorous. For sale by all dealers. 3dw

The Reason Why.

My reason for buying Cooking and other Stoves and Parlor Grates at the Albion Iron Works is because I can purchase them there at prices much less than they can be imported for. The quality of the goods is equal, if not superior, to the imported article, and by buying them I get my money back, if not directly I do so indirectly, because the money I pay for an Albion Stove is kept in the country. Do not let unprincipled dealers sell you the imported article when you can help to save the country by buying Stoves, &c., at the Albion Iron Works, Store street, or of any respectable dealer. Examine for yourself and take no other. *

FASHIONABLE MILLINERY. — Messrs. Shears & Partridge, of London House, have pleasure in announcing the arrival, per steamship City of Chester, of their first shipment of Millinery, Silks, Satins, Velvets, &c., &c. Messrs. S. & P. take this opportunity of notifying their patrons and the public generally that, although they do not adhere to a strictly cash business, they make a point of selling their goods as cheaply as any other house in the City. 2w*

PERIQUE CIGARETTES. — Frank Campbell, the well-known tobacconist, has just received his first shipment of *La Belle Perique* Cigarettes, which are entirely manufactured from the celebrated Perique Tobacco and fitted with patent corn-husk mouth-pieces. Their flavor is exceedingly agreeable and their aroma very fragrant. Mr. Campbell is sole agent for the sale of the Cigarettes in British Columbia. *1m

MEDICAL

MR. HELMCKEN

MAY BE CONSULTED AT HIS OFFICE, VICtoria, between the hours of 9 and 12 in the morning, and 5 in the evening. mh4

DR. SPINNEY & CO'S DISPENSARY,

No. 11 KEARNEY STREET, SAN FRANCISCO.

DR. SPINNEY, well known as the founder of the Montreal (C. E.) Medical Institute, and late Proprietor of the SPINNEYVILLE INFIRMARY would most respectfully inform his patients and the afflicted generally, that he still continues to treat chronic and nervous diseases with unparalleled success.

LADIES AND GENTLEMEN,

Remember that procrastination is the thief of time so

COME AND BE HEALED!

It matters not what you troubles may be, come and let the Doctor examine your case. It will cost you nothing for consultation, so please call and satisfy yourselves whether the Doctor understands your case. If he can cure you he will tell you so; if not, he will tell you that, for he will not undertake a case unless he is confident of effecting a cure.
Parties at a distance wishing treatment, by sending $25 and a minute description of their troubles will receive in return a full course of treatment securely packed so as not to excite curiosity.
DR. SPINNEY will guarantee to forfeit Five Hundred Dollars for every case of any kind or character which he undertakes and fails to cure.

ANOTHER WONDERFUL CURE

—EFFECTED BY—

California Elastic Truss!

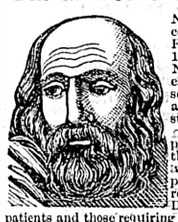

CALIFORNIA ELASTIC TRUSS CO., W. J. Horne Proprietor—Dear Sir: I feel that I owe it to you and to humanity to write the fact that I have been *SUBSTANTIALLY CURED* of a bad case of rupture of thirty years' standing, by one of your incomparable Trusses, which I purchased from you three months ago. I cannot describe the suffering, both physically and mentally, that I have undergone during that period; and now I feel like a new being. I have worn all kinds of Trusses, both Steel and Elastic, and never received any permanent relief until I tried yours. Its simplicity of construction, and facility with which it can be adjusted, and the ease and perfect freedom to the motions of the body with which it can be worn without causing any irritation, are its chief merits, and it is a perfect supporter. I have not had any sign of a return of the rupture since the first day I put it on and feel that I am *PERFECTLY CURED*. It is invaluable, and the fact should be known to the world. You can refer anyone to me on the subject of its merits I am truly yours, ALFRED J. BURKE,
Chief Mail Clerk S. F. Daily Evening Post.

NEW REMEDIES! NEW REMEDIES!

DR. GIBBON'S DISPENSARY

No. 623 KEARNY STREET corner Commercial, San Francisco, established in 1854, for the treatment of Nervous and Chronic diseases of all kinds, Skin Diseases of years' standing and Ulcerated Legs, etc., successfully treated.
DR. GIBBON has the pleasure of announcing that he has reurned from visiting the principal hospitals of Europe, and has resumed practice at his Dispensary, where his old patients and those requiring his services may find him.
The Doctor has spared neither time nor money in seeking out new remedies and has returned with increased facilities for the aviation of human suffering.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to DR. GIBBON, stating case, symptoms, length of time the disease has continued, and have the medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. By inclosing Two Dollars in a registered letter through the post office, or through Wells, Fargo & Co., a package of medicine will be forwarded by Express to any part of the world
